IN STOCK NOW

INDEPENDENCE SERIES
FLOOD LIGHTS
3,000 - 8,000 LUMENS

- High light output with low glare
- One piece die cast aluminum heatsink providing maximum heat dissipation
- External air flow fins dissipate heat
- High performance optics provide smooth even light

Knuckle mount standard - Add suffix T for trunnion mount

A portion of the proceeds from every Independence Series product sold will be donated to The Independence Fund.

Founded in 2007, The Independence Fund is committed to empowering our nation's catastrophically wounded, injured, or ill Veterans to overcome physical, mental, and emotional wounds incurred in the line of duty. We are dedicated to improving the lives of both our Veterans and their families. Through our Mobility, Caregiver, Adaptive Sports, Advocacy, and Family programs, The Independence Fund strives to bridge the gap of unmet needs for Veterans and their caregivers.

The independence series flood lights deliver performance and value. They are designed to offer a wide distribution – measured as NEMA 6x6 – replacing existing metal halide fixtures from 70 to 250 watts. Producing up to 128 LpW, they produce a smooth even light pattern.

The optic flood lights use individual acrylic lenses, which are the most efficient way to control and deliver LED lumens to the desired target. These high quality acrylic lenses guarantee more footcandles, less glare and less wasted light.

The extra-wide flood lights are designed to offer an extra wide distribution – measured as NEMA 7x7 – replacing existing metal halide fixtures from 70 to 1000 watts. Producing up to 151 LpW, they produce a smooth, even and uniform light pattern.
