

Prefabrication Solutions

CONNECT AND PROTECT

nVent CADDY offers a range of custom to ready-made solutions to fit the unique needs of your project. **Find out which one is right for you.**

DO YOU:

- ✓ Want to rely on a quality product with a long-standing history of performance?
- ✓ Source products designed with safety, cost savings, and installation time in mind?
- ✓ Need a product that's easily identified onsite by installers, foremen and project managers?

DO YOU:

- ✓ Want to use the nVent CADDY Components you know, love and trust but need quicker solutions?
- ✓+ Want to save time by reducing the amount of assembly required and expand your prefabrication capabilities?
- ✓+ Do you meet your budget targets while controlling for inventory and maximizing productivity?
- ✓+ Want to reduce waste and create a more efficient process?

DO YOU:

- ✓ Want to use nVent CADDY Pre-Assembled Products to reduce time and waste while controlling for budget and inventory?
- ✓+ Need to increase productivity without hiring additional team members or adding man hours?
- ✓+ Have large-scale projects that require customization or unique specifications?
- ✓+ Have a prefab shop that can't keep up with demand as your workload increases?

Contact nVent CADDY about specifying, designing or installing:

COMPONENTS

- Our most innovative industry solutions from nVent CADDY designed to meet evolving needs on the job site
- Upgrade to our new & improved versions of your favorite legacy nVent CADDY products
- Order any component individually

- Install more efficiently than competitive solutions making it easy to prefabricate complex assemblies

Need more?

Rely on nVent CADDY to scale with your projects by providing advanced, prefabrication assemblies that are UL-listed, designed to your project specifications, and assembled in a controlled environment to create maximum efficiency.

PRE-ASSEMBLED PRODUCTS

With **nVent CADDY Pre-Assembled Products**, you can win back valuable time on the job site otherwise spent assembling multi-part components.

- Standardize basic assemblies for common on-the-job installations
- Expedite installation while maintaining consistency & optimizing on-site skilled labor
- Partner with a distributor who can deliver & stock nVent CADDY assemblies and reduce your material management costs

Standard Prefab Assemblies:

Readily available nVent CADDY SKUs that typically include:

- Standard Box or nVent CADDY Open Back Box
- Standard mud ring or adjustable mud ring
- Specific nVent CADDY bracket solutions

(This category includes nVent CADDY All-In-One Assemblies)

Custom Prefab Assemblies:

Customized assemblies typically include:

- Standard Prefab Assembly with added devices and/or cable
- Customized assembly based on specific need

FULL PREFAB

Our **nVent CADDY Full Prefab** offering provides a flexible, convenient and comprehensive solution to support even the most customized and labor restrictive jobs.

- Eliminate on-site assembly & reduce installation cost
- Design, assemble & ship by floor to mitigate excess inventory & accommodate change orders
- Configure assemblies depending on your project type & schedule
- Design to project specifications

Full Prefab Project:

- Includes design and engineering, layout or installation drawings for each room
- Assembled and shipped by floor or area
- Electrical support throughout quoted project
