

## Simple. Secure. Smart.

### Wirelessly control smart lights from anywhere in your home

The HALO Home Smart Lighting System offers a convenient way to control your home's lights with the flexibility of individual room control to whole home control. Using the HALO Home Smart Lighting System, easily configure home lighting via Bluetooth connection using any smart device; no internet or hub required. Securely connect, automate and control lighting. The complete system offers HALO smart interior and exterior lighting, smart switches, voice control\*, remote access\* and an easy-to-use, downloadable HALO Home App.

\* Pair with Amazon Alexa for voice control or access your lights remotely from anywhere with the Internet Access Bridge (sold separately) by using your mobile device or web browser.

## Features

### Dimmable

- The downlight will dim to 5% using the app or HALO Home Dimmer Switch.

### Adjustable Color

- Adjust color temperature (CCT) from 2700K (warm) to 5000K (cool) using the app.
- Maintains 90 CRI throughout color adjustment.
- Factory defaults 3000K.

### Grouping

- Choose multiple Halo RL wireless downlights and control them all together using the app.

### Scheduling

- Create a schedule within the app for individual products or groups of products.
